Comments
Effectively incorporating my internship experience and creating two large projects that I can use in the future to reflect my work and learning: a professional portfolio and a sensible strategic plan.
Provided a learning experience, but also used practical tools like resume writing, development of a reading list, considering interview questions, etc.
Gave me the opportunity to learn new things from a different lens

Provide suggestions to improve the course (readings, presentations, discussions, materials, course site design, etc.)

I really like this text book and can see myself referencing it in the future.
Make work more individual and only on-ground. I found having this online was hard to work with partners.
