

Asset-Based Community Development For Faith-Rooted Organizations

Training Workshops for Your Organization

Create a dynamic ABCD training workshop at your location. We provide the trainer and curriculum – your organization handles the logistics.

The Faith-Rooted Working Group of the ABCD Institute is now offering training customized to your faith-rooted setting and its relationship to its neighbors. Trainings could include:

- Tools for asset-mapping your congregation
- Stories and inspirations to open up creative new ways of doing things
- Strategies to connect people over difficult issues facing communities
- Experiential training in your immediate neighborhood
- Ways of overcoming the deeply-ingrained charity model

Asset-Based Community Development (ABCD) is a way of envisioning community that provides new insight into communities on both sides of your congregation's doors.

For questions and to set up a consultation, please contact the ABCD Institute at abcd@depaul.edu or call 773-325-8344.

We also offer several scheduled ABCD training workshops throughout the year. Visit our events page at www.abcdinstitute.org.
