

# FUNDING RESOURCE

Gaining experience is vital to being a competitive candidate for employers of all industries. Unfortunately, there are specific settings where finding a paid or funded opportunity can be difficult or feel close to impossible. This resource outlines specific funding resources including grants, scholarships, and fellowships to gain career preparation experiences related to Education, Nonprofit, and Government. While these can be a solid starting point, it is always recommended to do additional research and be creative when thinking about ways to fund these types of experiential opportunities. Don't forget to advocate for yourself and the important work that you're doing! If you don't ask, the answer is always no. If being paid is not an option, there may be other benefits the employer can offer such as a one-time stipend, fulfilling academic course credit, etc.
