WHAT CAN I DO WITH A MAJOR IN MARKETING?

Marketing has two main concentrations and an hours program. The first concentration is the Standard Marketing Program, or Integrated Marketing Education (IME) Honors Program within the Marketing major. The second concentration is the program’s nationally-renown Center for Sales Leadership, which also has an opportunity for a Category Management focus. Overall, the Marketing Department offers a variety of courses within the major specifically designed to develop and sharpen students’ skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers’ needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customers needs.
